# ITALIAN WHITE

The color of this exquisite sheet is flawless, pure white. Additionally, with a 0.8 waterproof rating, it is the world's hardest Italian white sheet among all white colors.

ITALIAN WHITE

## FEATURES:

- Water Resistant
- Fire Resistant
- Thermal Resistant

**SIZE: 8\*4 FEET THICKNESS: 3MM**

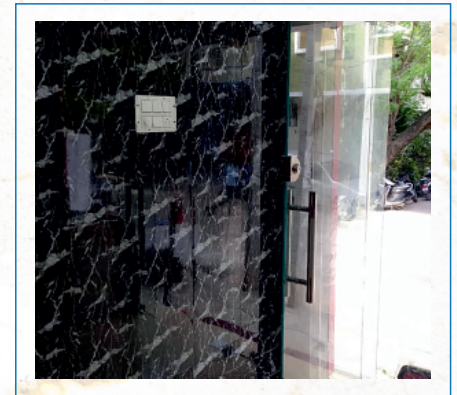

## ITALIAN BLACK

This elegant sheet is entirely pure black in color. It's also the hardest Italian Black sheet among all white colors in the world with a 0.8 waterproof.

ITALIAN BLACK

### FEATURES:

- Water Resistant
- Fire Resistant
- Thermal Resistant

**SIZE: 8\*4 FEET THICKNESS: 3MM**

# INDUS GOLD

Indus Gold is a dense, hardy metal with a strong gold-yellow tone. This polygranite is exceptionally beautiful and sheets nicely.

# INDUS GOLD

## FEATURES:

- Water Resistant
- Fire Resistant
- Thermal Resistant

**SIZE: 8\*4 FEET THICKNESS: 3MM**

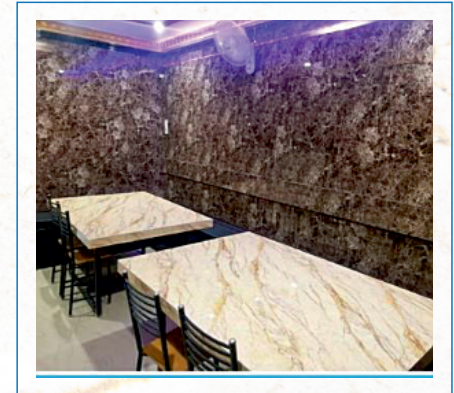

# FONCE IMPERIAL

The Fonce imperial sheet is a sophisticated example. It works particularly well for applications on countertops, walls, and floors. It is suitable for both exterior & interior designs.

## FONCE IMPERIAL

### FEATURES:

- Water Resistant
- Fire Resistant
- Thermal Resistant

**SIZE: 8\*4 FEET THICKNESS: 3MM**

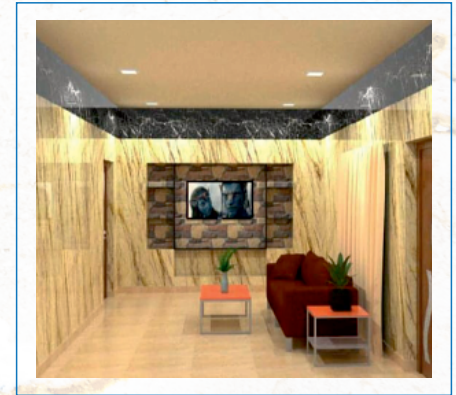

## RAINFOREST GOLD

The gorgeous Rainforest Gold base sheets have a brown, root-like structure on them. It is simple to install and maintain. It is amazing because of the golden hue and super pattern.

## RAINFOREST GOLD

### FEATURES:

- Water Resistant
- Fire Resistant
- Thermal Resistant

**SIZE: 8\*4 FEET THICKNESS: 3MM**

# OPERA GREEN

Opera Green is a stunning and sturdy material used in many different applications, including floors, countertops, walls, and more. High-end kitchens and other commercial and residential projects both use it.

# OPERA GREEN

### FEATURES:

- Water Resistant
- Fire Resistant
- Thermal Resistant

**SIZE: 8\*4 FEET THICKNESS: 3MM**

# PINK PEARL

Pink Pearl is a beautiful and durable material used in a wide range of applications from floors, to countertops, to walls and beyond. It is suitable for both exterior & interior designs.

# PINK PEARL

### FEATURES:

- Water Resistant
- Fire Resistant
- Thermal Resistant

**SIZE: 8\*4 FEET THICKNESS: 3MM**

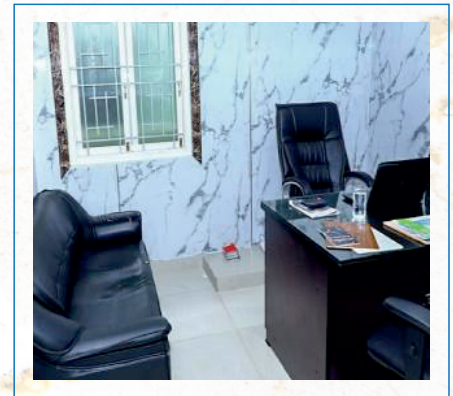

## PEARL WHITE

Cool whites combined with light and dark flecks are used in pearl white sheet countertops to create a charming speckled appearance that will alter a room. Its polished surfaces are ideal for indoor uses on counters, walls, & floors.

## PINK WHITE

### FEATURES:

- Water Resistant
- Fire Resistant
- Thermal Resistant

**SIZE: 8\*4 FEET THICKNESS: 3MM**

# WOOD PATTERN

Amazing texture differences in wooden pattern sheets produce a slick, carefree, and character-filled decor look. Every type of interior design has a distinctive hardwood pattern sheet that is ideal for its appearance.

## WOOD PATTERN

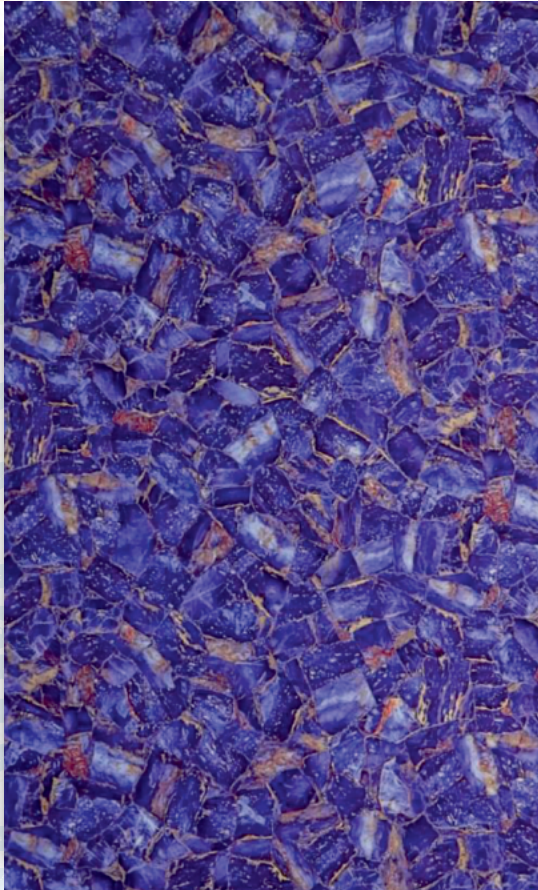

### FEATURES:

- Water Resistant
- Fire Resistant
- Thermal Resistant

**SIZE: 8\*4 FEET THICKNESS: 3MM**

# IMPERIAL BLUE

South Indian quarries produce the appealing blue-colored Imperial Blue granite. This blue sheet product is a well-liked option for almost every form of home- and office-based installation worldwide because of its magnificent appearance.

# IMPERIAL BLUE

### FEATURES:

- Water Resistant
- Fire Resistant
- Thermal Resistant

**SIZE: 8\*4 FEET THICKNESS: 3MM**

# DIAMOND CUT

Diamond cuts give countless innovative design possibilities. They are absolutely wonderful, audacious, and encouraging. This shape, in our opinion, is a must-have for your upcoming renovation for interior design

# DIAMOND CUT

### FEATURES:

- Water Resistant
- Fire Resistant
- Thermal Resistant

**SIZE: 8\*4 FEET THICKNESS: 3MM**

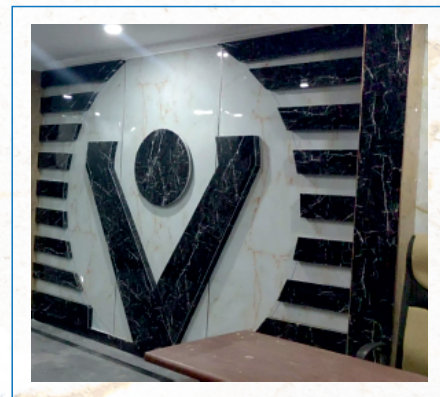

## LAVADIA BLACK MARBLE

For those wishing to modernise their kitchens and make the entire room unique, Lavadia Black Marble sheets are the best design choice. Installing Lavadia Black Marble kitchen countertops will boost appearance.

# LAVADIA BLACK

### FEATURES:

- Water Resistant
- Fire Resistant
- Thermal Resistant

**SIZE: 8\*4 FEET THICKNESS: 3MM**

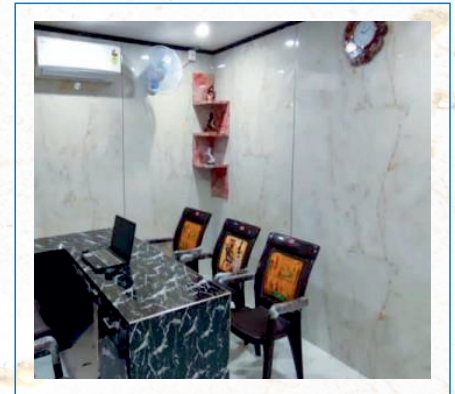

## OPERA ORANGE

Opera Orange sheet countertops blend cool whites along with light and dark flecks to produce a lovely speckled effect that will change a room. On worktops, walls, and floors indoors, its glossy surfaces are perfect.

# OPERA ORANGE

### FEATURES:

- Water Resistant
- Fire Resistant
- Thermal Resistant

**SIZE: 8\*4 FEET THICKNESS: 3MM**

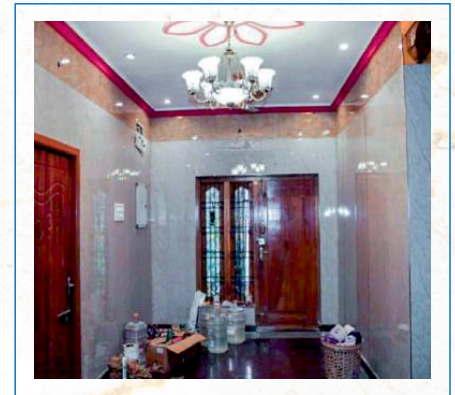

## SAFFRON BROWN

One elegant illustration is the saffron brown sheet. Applications on floors, walls, and countertops perform exceptionally well. It works well for both indoor and exterior projects.

# SAFFRON BROWN

### FEATURES:

- Water Resistant
- Fire Resistant
- Thermal Resistant

**SIZE: 8\*4 FEET THICKNESS: 3MM**

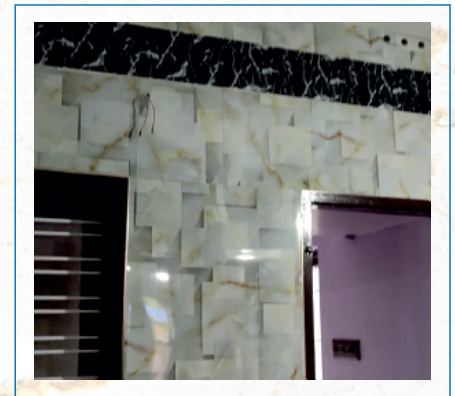

## 3D PASTORAL GRANITE

Sheets of 3D Pastoral Granite have a long lifespan and are incredibly durable. All across the world, there is a great demand for these polygranite sheets from Taiwan, which are shipped into India.

# PASTORAL GRANITE

### FEATURES:

- Water Resistant
- Fire Resistant
- Thermal Resistant

**SIZE: 8\*4 FEET THICKNESS: 3MM**

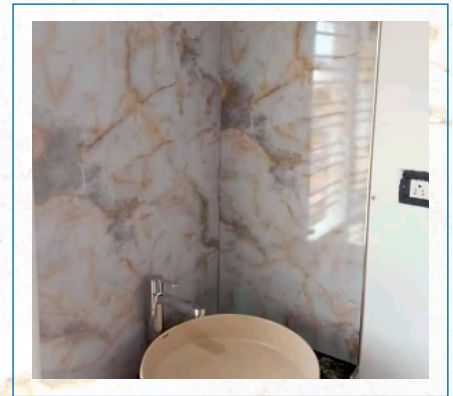

## VERDANT GRANITE

Verdant Granite is a high-end item of unrivalled quality and beauty. It is suitable for projects inside. Best Polygranite sheets for, among other places, bedrooms, living rooms, dining areas, restaurants, bars, offices & wellness centres

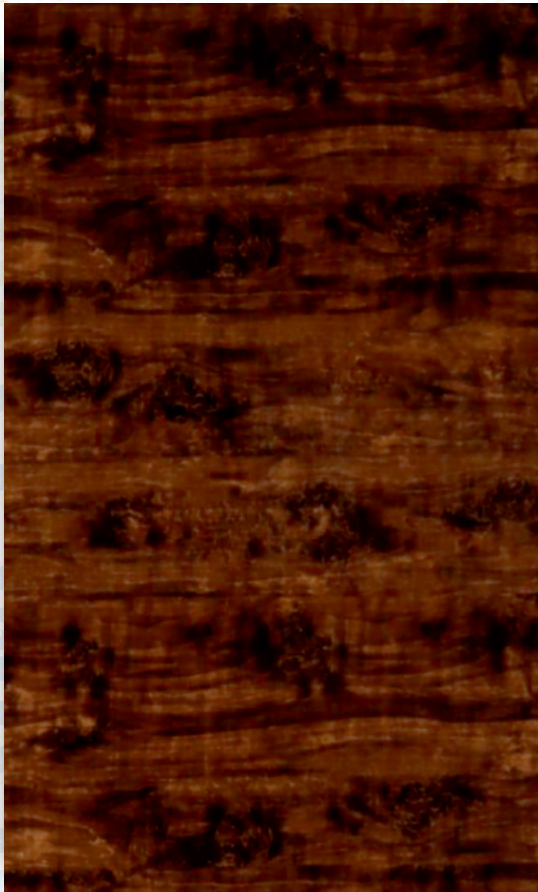

## VERDANT GRANITE

### FEATURES:

- Water Resistant
- Fire Resistant
- Thermal Resistant

**SIZE: 8\*4 FEET THICKNESS: 3MM**

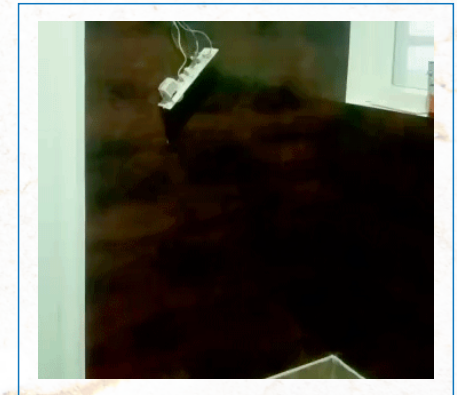

## NOVOCENO PINE

Novoceno Pine Sheets are very strong and have a lengthy lifespan. These Taiwan-made polygranite sheets are imported into India and are in high demand everywhere.

## NOVOCENO PINE

### FEATURES:

- Water Resistant
- Fire Resistant
- Thermal Resistant

**SIZE: 8\*4 FEET THICKNESS: 3MM**

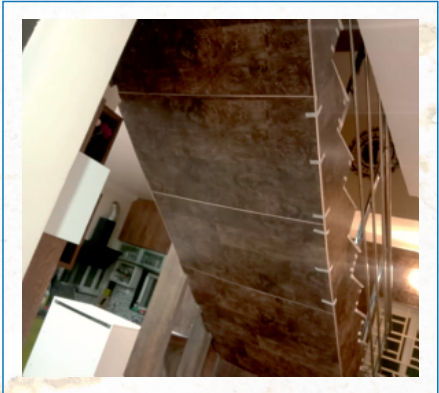

## BRAZILIAN WOOD

Brazilian wood sheets are extremely durable and long lasting. These polygranite sheets, which are manufactured in Taiwan and imported into India, are quite popular worldwide.

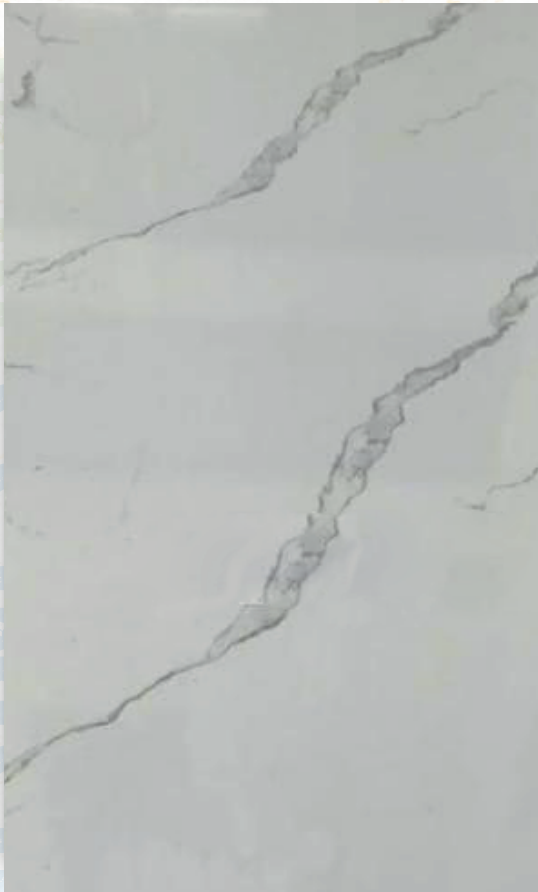

## BRAZILIAN WOOD

### FEATURES:

- Water Resistant
- Fire Resistant
- Thermal Resistant

**SIZE: 8\*4 FEET THICKNESS: 3MM**

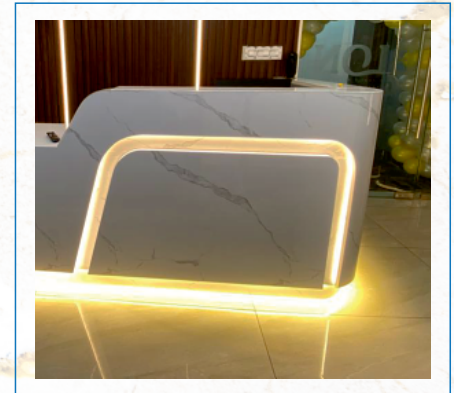

## STATUARIO GRANITE

Above Carrara are the Statuario granite mountain quarries. Statuario granites are in high demand and have a limited supply. This polygranite sheet is more difficult to come by because of its low supply.

## STATUARIO MARBLE

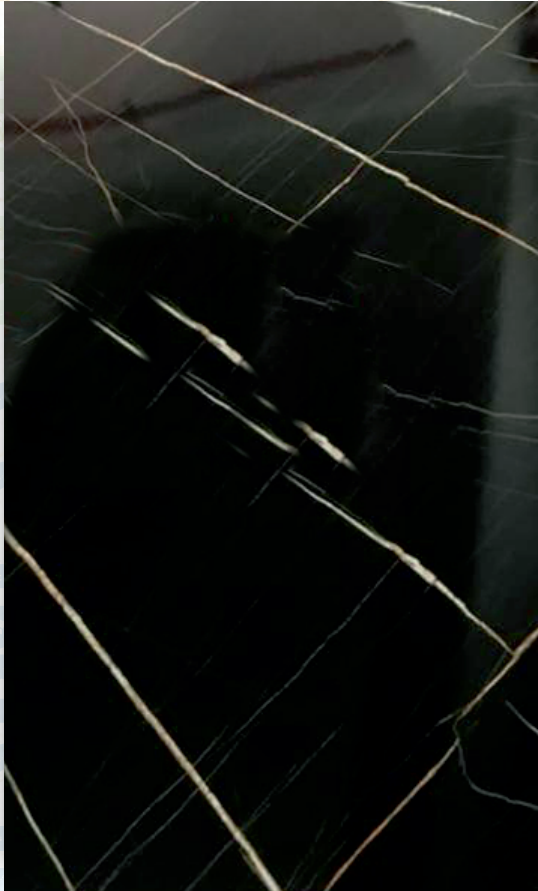

### FEATURES:

- Water Resistant
- Fire Resistant
- Thermal Resistant

**SIZE: 8\*4 FEET THICKNESS: 3MM**

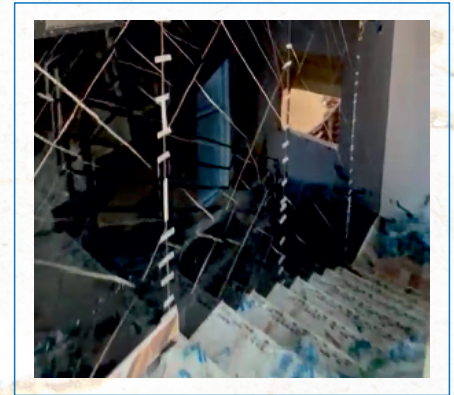

## BLACK MIRAGE

The base's black mirage has an obsidian-like texture that occasionally resembles burnt granite. Throughout Black Mirage, veins of white, copper, and gold alternate. The pattern is linear and essentially straight.

# BLACK MIRAGE

### FEATURES:

- Water Resistant
- Fire Resistant
- Thermal Resistant

**SIZE: 8\*4 FEET THICKNESS: 3MM**

## WHITE

The majority of the substance is made up of sheets, which gives milky white polygranite its color, and feldspar, which gives opaque white polygranite its color.

# WHITE

### FEATURES:

- Water Resistant
- Fire Resistant
- Thermal Resistant

**SIZE: 8\*4 FEET**

**THICKNESS: 3mm &1.2MM**

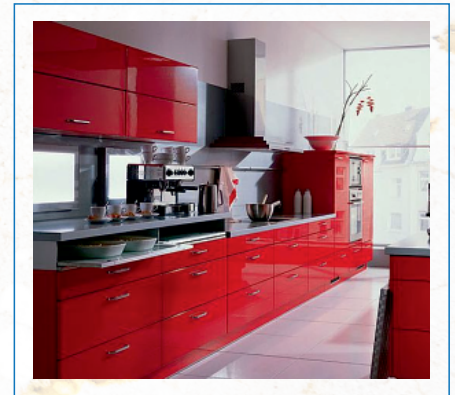

## RED

Red polygranite's distinctive colour is mostly a result of sheets and feldspar, which make up the majority of the material.

# RED

### FEATURES:

- Water Resistant
- Fire Resistant
- Thermal Resistant

**SIZE: 8\*4 FEET THICKNESS: 1.2MM**

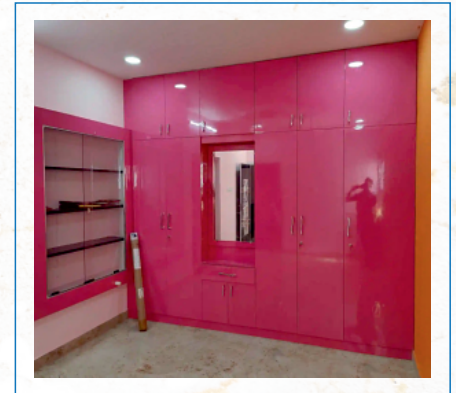

## PINK

Due to the high potassium feldspar content, Polygranite sheets are pink in colour. Small flecks of opaque white feldspar, dark brown or black amphibole, and milky semi-transparent quartz can be seen. However, potassium is the main mineral in sheets like the one above.

# PINK

### FEATURES:

- Water Resistant
- Fire Resistant
- Thermal Resistant

**SIZE: 8\*4 FEET THICKNESS: 1.2MM**

## GREEN

Polygranite sheets are green in colour because they contain a lot of potassium feldspar. Small bits of milky semi-transparent quartz, dark brown or black amphibole, and opaque white feldspar can be seen. But in sheets like the one above, potassium is the primary mineral.

# GREEN

### FEATURES:

- Water Resistant
- Fire Resistant
- Thermal Resistant

**SIZE: 8\*4 FEET THICKNESS: 1.2MM**

# YELLOW

Due to the high potassium feldspar content, polygranite sheets have a yellow tint. There are tiny fragments of milky semi-transparent quartz, black or dark brown amphibole, and opaque white feldspar. However, potassium is the dominant mineral in sheets like the one shown above.

# YELLOW

## FEATURES:

- Water Resistant
- Fire Resistant
- Thermal Resistant

**SIZE: 8\*4 FEET THICKNESS: 1.2MM**
